

SERIES HM 15

Automatic Stapling Machine for flat and saddle stapling

The HM 15 and HM 15/2 are the staple professionals among the STAGO staplers. They combine versatility, efficiency, and robustness. Designed for professional continuous use. With a stapling capacity of up to 17 mm with one or twin stapling heads, they are the reference for the bench models. Using a few simple hand movements, the support table can be converted between a flat and saddle stapler. Staple front loading and a large staple cartridge allows for efficient operation even for small runs. With the fully automatic stapling force adjustment and the active clenchers, perfect stapling results are a breeze. The ability to process additional staple loops complete our range of bestsellers.

For longer runs, the HM 15/2 model with twin stapling heads and a fixed staple clearance of 80 mm (folder dimension) is suitable. Perfect for booklet making with loop staples in one working step.

- fast and easy conversion between flat and saddle stapling
- with one or two stapling heads available
- ready for paper size up to DIN A3 and stapling height up to 17 mm
- fully automatic stapling force adjustment and the active clenchers
- processing of flat and loop staples
- designed for continuous use, economically even for small pads
- staple loading from the front
