

EZF-600

Fully automatic, utmost user-friendly model.

- All the setting and operation can be done via the touch screen.
- Features paper feed pressure & separator pressure adjustment.
- Automatic feed table elevation and delivery roller setting.
- An optional device allows the EZF-600 to perforate, score and kiss-cut papers instead of folding.
- The most productive, reliable and user-friendly paper folder at its class.

Paper feed pressure adjustment helps the machine to feed wider range of stocks.

Separator pressure adjustment prevents double feeds.

EZF-500

A touch screen makes settings a lot easier.

- Features automatic folding position setting.
- Folding patterns can be stored and recalled via the touch screen.
- Fastest folding speed at its class, up to 14,400 sheets/hour.
- Perforation / scoring / kiss cut units available as options.

The touch screen indicates drawings to support settings and trouble shootings.

The double feed detection sensor prevents mis-folded papers being contaminated to outputs.

Options for EZF-500/600

Perforation/scoring unit

By replacing a perforation unit to a folding table, the EZF-500/600 can be used as a perforator. It is also possible to add or replace perforation/scoring/kiss-cut heads on a unit to give multiple finishing by one pass.

Perforation/Scoring/Kiss-cut heads

These heads which hold rotary tools can be mounted on a perforation/scoring unit.

- + Perf head with perfing position adjustment
- + Perf head with perfing pressure adjustment
- + Thin perf unit

Rotary tools

- + Micro perforation blade
 - 0.35mm(cut), 0.2mm(tie)
- + Perforation blade for thick paper
 - 2.0mm(cut), 1.0mm(tie)
- + Scoring blade
- + Kiss-cut blade
